REGULAR HOURS: MON-FRI. - 8AM - 4PM
24 HOUR EMERGENCY SERVICE:

Available 365 days a year. Contract applies to loss of heat, severe smoke, or oil leak. No hot water is not an emergency.

Orders for the Service Contract are subject to our acceptance of the AC or heating system during our first service of the AC or heating system. Such acceptance, however, does not imply that Spadafore Oil warrants the integrity of your AC or heating system. Our refusal to continue the Contract will result in a complete refund of the contract price paid. Service will still be available for your equipment on per call basis at prevailing rates for parts and labor.

Acceptance of this service agreement by the company does not obligate it for secondary damages caused by freeze-ups, tank or underground line leakage, failure of equipment or the other conditions resulting from delays, or failure to render service due to situations beyond its control or by strikes, wars, riots, or Acts of God. Covered service under this plan does not include labor and materials made necessary by fire, water damage, tampering with equipment by other than Company authorized technicians, or other abnormal conditions. Nor does protection under this plan include repair or damage resulting from low temperature freezups of the heating system. Reset buttons should be pressed only once. **Should the customer hit the reset button more than once the customer will accept all liability for any resulting damage.**

The Company assumes no responsibility for heating failure or damages when the customer's home or building is unoccupied or when it's service technician is unable to gain access on requested calls.
